Dear Dorothy:

TRM Electric Corp. supports Federal Express' application for additional route rights to China. We use Federal Express as a shipper to import and export items to Well Handled Electric Factory in Zhongshan City, Quangdong Province China, We rely on Federal Express for dependable express service to and from China.

TRM imports Electric cord sets and other items from China as well as exports many drawings, data sheets etc. to Hong Kong, China, and Taiwan. Without **FedEx's** help we would **suffer** losses in business. Please give them every consideration for additional route rights in China, so they can better serve TRM as well as many new customers.

Sincerely,

  
 Jim Sattie
